Assessment is discussed and participants will set up their own assessment grids.  
Sessions help participants set up exercises using online CLIL Tools in a scaffolded setting. Participants are shown and develop their own online interactive exercises.  
Tools are explored, analysed and discussed, developing the participants' use of their communication skills in English.  
Teachers are asked to reflect on the tools & activities, inviting discussion with regard to their own knowledge & skills, their approach to teaching today's students, and on adaptation of the use of the tools to their teaching & learning situations & contexts.  
Exchange of participants' CLIL experiences, ICT and pedagogical knowledge is encouraged through networking and discussion.  
Participants' own language skills are developed and feedback given where appropriate.  
Participants are also introduced to appropriate websites related to the further development of their teaching skills & personal professional development.

## FOLLOW UP

The course ends with an evaluation session, where teachers are asked to reflect upon the value of the knowledge gained on the course. They are also encouraged in this session to come up with a Personal Development Action Plan, and select tools & activities which they would like to try out in their own classes or projects.  
They are invited to join the ETI Teacher Training Facebook community, which allows networking and contact with the trainers and fellow colleagues, and with participants from other courses.  
Participants are also encouraged to join communities for the current POOLS Projects, and other ETI-related EU Projects, such as METHODS (Communicative Language Teaching Methods), TOOLS, and CLIL4U.
