

Practical Ideas for the Primary Classroom

"I'm completely satisfied with the course. It updated and expanded both my teaching ideas and my own knowledge and use of English. The course surpassed my expectations."

- Dobrinka Todorova, April 2016

This two week course explores techniques to motivate and encourage very young learners (aged 4-11) to use English as a tool for effective communication. Methodology focuses on practical ideas for teaching very young learners. Personal language development focuses on oral fluency and colloquial English.
