Description of training content

Preparation

Each applicant needs to send an action plan four weeks before the course outlining hopes and objectives for achievement as a result of attending this course

Objectives

This course will teach you how to creatively use mobile technology in teaching. You will also learn how to bring magic into your class and the use of mobile technology will give your students the incentive to participate in the lesson by engaging them more fully.

Expected results

This course will enable you to develop practical skills for using mobile technology in your teaching, and run an enchanting, magical app show with your mobile device in the classroom.
